When Andre came to Turnor Lake from La Loche in 1938, there were not 10 houses. Because he trapped hard at Frobisher Lake, one man took him north. Andre was poor at that time so the man gave him traps, clothes and food. There was no family allowance so everyone hunted moose to get good meat. A man could feed his children on the $12 he got for a moosehide. If those people had today's money they would have thought they were millionaires.

Parents brought supplies back from La Loche for the children in packs tied to the backs of their dogs. It was a long walking trail through muskeg.

People were poor. There were not many matches so they were used sparingly. Everyone shared them and kept fires in stoves going. Neighbors borrowed a flaming stick to start fire in own place. Today it's not like that. People misuse what they have.

There was no school in Turnor then, only in Ile-a-la-Crosse and Beauval.
In 1938, there were no schools in La Loche, Descharme, Garson, Buffalo Narrows. Now there's schools every place.

Now the kids just run around after school until bedtime. The kids run all over like they own the town because the parents aren't strong with their kids. When treaty days came in June everyone left Turnor and dog cries were all you could hear.

For treaty time everyone went to Cree (Clear?) Lake Reserve by canoe. When the highway was built the people moved from Cree (Clear?) Lake to Turnor Lake where new houses were built. Andre had a trapline at Careen Lake which he got to by canoe in summer up the Clearwater River. When young, hunting, trapping and fishing were good there. In fall took the dog team over dry ground with canoe in sled.

(Andre tells of hunting moose, preparation of meat and tanning of hide.)

(Andre tells how fish nets were made.) String for nets was given out at treaty day.

At that time people worked hard for themselves. After Christmas, Andre was sent to the Big Point to get fish from the fish houses. People had lots of fish put up row over row. Fish and potatoes is what the people lived on and because they were poor, they worked hard.

(Andre tells how stick fish were hung in the fall.) Only small fish now because too many killed for fish buyers. Len Waite came from Buffalo Narrows by boat in summer and by snowbug in winter to buy fish. Made winter roads to Careen and Descharme Lakes. He first bought fish at 8 fish for 4.

The poor lived off the prosperous. When Andre got married, he hunted with his father-in-law. He took his blanket to people's houses until could afford his own tent. Because the closest store was Buffalo Narrows, things were hard to get even if you had money. Only 3 of original men left in Turnor. Tobie Montgrand, Joe Bag, and Gilbert Archie. The men used to go trapping in fall and leave women at home. The women had to pack firewood on their backs, snare rabbits, fish with nets and care for children while men were away. The priest from La Loche walked to Turnor in winter because he had no dogs then.

Father Ducharme would walk from La Loche through the muskeg if someone was sick in Turnor. Church was important then. Andre's dad, Jim Montgrand, trapped at Descharme Lake. (Andre tells of hunting and trapping before there were licences.) It was better then. Andre trapped at Lloyd Lake and went north to McFarlane Lake and followed that river to near Athabasca Lake.

Andre usually went hunting beaver after Easter at Brustad Lake. The old men never went south only north before. Women used to
cut meat from along moose backbone and made it into thin line like string to make moccasins with.

They used that moose sinew to sew moccasins and mitts to sell. There’s lots in the store now but not then; no mosquito nets or Raid. Cattle dung was number one.

Cow dung was collected and burnt in a pail by the door of the house to repel the mosquitos.

When Fr. Ducharme had mass in La Loche, people walked from Turnor, Garson Lake, Descharme Lake. It was really important then. In the hot weather mass lasted 3 weeks. What priest said was law. People obeyed him and the children obeyed their parents. Times were happy then. Today when older people remember that, their hearts are broken.

When Andre was young, his mother died and father remarried. His stepmother didn't like him so he left home. Being very poor he slept in his coat. When went north trapping with Edward Park he was given everything he needed. He would go in front of the dog team and test the ice with a stick.

(Andre tells how they used to make 'Dead Fall' traps.)

(Andre tells how they speared beaver through their houses in winter.)

(Andre tells how they stretched the beaver by tying them onto willow branches.)

Andre: Yeah one time there, this one here, the highway.

Andre: Yeah as the highway come, when they made highway to this place, come from everybody, Clearwater...
Ray: Then they came over here, eh?
Ray: Did they bring their houses here?
Andre: Yeah. No they made them houses.

Ray: When was that about 1960?
Andre: I don't know.

Ray: Yeah. Where was your trap line?
Andre: Oh near Careen.
Ray: Careen Lake?
Andre: Yes, Careen Lake. A long way it was. Low too. Long time before in trapping.
Ray: Who made that winter road there? Somebody make it?
Andre: Yeah, the man, before long time.

Andre: No.
Ray: Not John Pigeon?
Andre: It was a man, other man.
Ray: You don't know his name, eh?

Ray: Joe Bag made that road, eh?

Andre: Yeah. Maybe he made it, Joe Bag, old Joe Bag. And made the road.

Ray: Yeah, up to Careen Lake, eh?

Andre: Yeah.

Ray: A winter road. So sometimes you went up there in the wintertime, by dog team?

Andre: In the wintertime just, that's only wintertime that one, the road.

Ray: Yeah.

Andre: And in the December...

Ray: In December you went Long Lake, and then Pipe Lake, and then to Careen River, eh?

Ray: And then up to Careen?

Andre: Yeah.

Ray: Careen Lake. Did you have a cabin up there, Careen Lake?

Andre: Yeah.

Ray: Yeah. So you stayed there every year, eh?

Andre: This place here, one place right here, I think, that's our place.

Ray: Yeah.

Andre: Our tourist camp.

Ray: Here, eh?

Andre: Yeah.

Andre: Oh, that one here I didn't know, no (?) from here just place.

Ray: Up at the north part?

Andre: Yeah. Boy, lots of place for it.

Ray: Yeah. A long way?

Andre: Yeah, lots of place. Yeah, nobody stay there trapping.

Ray: No?

Andre: Yeah, me alone, I tried it. It was before here a long time. Well, month and a half I stayed here. That's good, that's good hunting. Moose and hide would be, of course hide may be good.

Ray: Yeah.

Andre: Boy, these times were hard.

Ray: Not as many animals now, eh?

Andre: Yeah. Us old men. First time I was a young boy it was all right. Very good.

Ray: Yeah. You go fishing too on Careen Lake? You do some fishing?

Andre: Eh?

Ray: Did you fish on Careen Lake?

Ray: In the fall time you fished?

Andre: Yeah. In the fall time of year there's lots. As the winter, January, February, no fish.

Ray: Oh yeah.

Andre: Go down.

Ray: Yeah. So you used to go up this way in the fall time, eh?

Andre: Yeah.

Ray: And you take your motor, and everything in the canoe?
Andre: Yeah, just bring pack it.
Ray: Do you take your dog team?
Andre: Yeah, the dog team's all right.
Ray: In the fall?
Andre: Yeah, in the fall.
Ray: Even when there's no snow?
Andre: No snow is all right.
Ray: They still pull it?
Andre: Yeah, six dogs is good. Six dog and (?) maybe.
Ray: And you put your canoe on the sleigh?
Andre: Yeah. Put the canoe on the sleigh, put a long stick, you know, long stick. Had to put in the canoe, none broken.
Ray: Yeah. No.
Andre: Yeah, canvas not broken. Yeah.
Ray: And the motor in there too?
Andre: Yeah, (inaudible) two engines, I think, four stick too. Up this side, for two, two this side -- none broken, nothing, no place. Motor put in our boat, (inaudible).
Ray: Yeah.
Andre: Got two, it was all right.
Ray: It must be heavy for the dogs, eh?
Andre: Oh, it was all right with the dogs.
Ray: And they just pull it on the dry ground, eh?
Ray: So they run over the sticks?
Andre: Yeah. Easy.
Ray: You stay there all winter?
Andre: No. Before, first time, yeah. That old winter everyone stay here at this place.
Ray: Everyone did?

Andre: Yeah. Every month.

Ray: Oh every month.

Andre: Yeah, for me, my work from here. Because all the time around, around, around mine.

Ray: Yeah.

Andre: Yeah. Yeah.

Ray: So your wife stayed here and you were up there, eh?

Andre: Yeah.

Ray: Oh. She didn't go with you up there?

Andre: Sometimes yes, stay here at Careen, my wife too. Last time, there one time there winter, Careen, fishing.

Ray: Oh yeah.

Andre: And fish in Careen here about two months, I think. Just fish that's all. They're hungry for me.

Ray: Yeah.

Andre: My wife too, they're hungry, just alone fish. It was all right and stuff in the store, and the fishing. And that there month, first day here there is a hunting for moose, for me for winter.

Ray: Yeah.

Andre: Maybe February I think. We went there all day, I didn't see nothing, walking. Another day, another morning, boy, the morning high, lots of snow come. Be foot and a half, I guess, of snow had come at night. And the morning I'd go again. I came here after dinner, I see one moose, cow moose. I shoot. You shoot here three times. I kill a moose. Boy, lots of fat; that's good fat. A big moose, I eat good. My wife too.

Ray: That's good, eh?

Andre: Yeah, I eat good. I make it dry meat for my wife. I had good meat.

Ray: How do you make a dry meat? You cut it thin?

Andre: Yeah, cut, no hide. Not much hide. I put that down here and dried it.
Ray: And smoked?

Andre: Yeah, no, yeah as a can, you know. You know the can? And I put in this house on the stove, that's hot day, hot house. Yeah. I dried, easy dried.

Ray: Yeah. So it lasts a long while?

Andre: Oh I (inaudible) moose hide. Yeah, outside. And go in the side one, one, one place in the fire. This place too. Two place in the fire.

Ray: Two fires, eh?

Andre: Yeah, two fire. And make it moose hide dried. Go into bone here, I take that meat, you know, clean it. After the other side I make a four place in the fire.

Ray: Four?

Andre: Yeah, four place. This here, that's four place in the fire, make it right every time. Have to clean again the other side.

Ray: What kind of wood do you burn for the fire? Green wood?

Andre: No. Dry wood.

Ray: Just dry wood, eh?

Andre: Yeah dry wood.

Ray: And it smokes the hide, eh?

Andre: Yeah.

Ray: Make it smoke, eh?

Andre: Yeah, smoke is all right. It's after smoke, just all dried, just cleans hide. You don't put any. There's one here grease, you know. This grease, that's mess. You put in this stick here, a hide, smoked from here, green.

Ray: Green, green wood?

Andre: Yeah. Last make it.

Ray: Yeah, last time, eh?

Andre: Yeah, last time. I make it good here the other side too. And put it in the water.

Ray: Put it in the water?

Andre: Yeah, put it in the water. It's wet here, the shank
is wet. Yeah. You put aside (?), you know.

Ray: You rub it?

Andre: Yeah. It was wet, that's good wet. Yeah, every make it. That's after here, tight.

Ray: How do you do that?

Andre: Put in the stick here. This one here is lined, the moose hide. Put another one, lot long stick. Put it here. Pull it tight, tight, tight, tight, tight.

Ray: You wring it out, eh?

Andre: Yeah, and it goes in the water.

Ray: Water goes out, eh?

Andre: Yeah. Because you going from here and the stick, that one put in hide tight. That one put it in just to here, just right, good. Yeah. See that's like a stock.

Ray: And you make clothes out of this?

Andre: Yeah.

Ray: Shirt, pants too?

Andre: Yeah, sure.

Ray: It's good and warm, eh?

Andre: Yeah, it's good.

Ray: And how did you, you remember in the old times when they used to fish?

Andre: Yeah.

Ray: Before they had nets?

Andre: Yeah.

Ray: And you make a net?

Andre: Yeah. I make it for my wife.

Ray: Yeah.

Andre: First net, yeah.

Ray: Can make it?

Andre: Yeah, they're tight, they're thick. That one here. Inch, you know, that one an inch. Yeah, three inch that side, I don't know might be four, five inch I think. Five inch. I
Ray: That's with string?
Andre: Yeah.
Ray: Oh yeah.

Andre: He(?) to hang it up on a small string, net string.

Ray: You get that from the Bay?
Andre: Yeah. Stick here this high, five inch high stick, flat. Flat stick just pull it tight, make it tight. Match maybe ten, fifteen match, twenty match are medicated. Make long, long.

Ray: Do you remember a long time ago old people used to make the nets before, before they had string? Do you remember if they used to make it?
Andre: Well, some treaty, the treaty guy, they give you string.
Ray: Oh yeah.
Andre: Treaty day, they'll give you string.
Ray: To make the nets with.

Andre: Yeah, some guy he'll give you a little bit, every guy. One family, one place, that guy he'll give you a little bit. He'll let half a net, he'll give you, cut it. About half a net long. You know here I see a first time come from here lots of fish in this lake.
Ray: This lake, Turnor Lake, eh?
Andre: Yeah, Turnor Lake. (inaudible) (*Speaks in Chipewyan.) You know here the old time they'll pull whole kind of fish, eh. Yeah. Kill them, you know, put in here.
Ray: Stick fish, eh?
Andre: Yeah, they stick fish. Maybe ten, one stick.
Ray: Yeah, ten on one stick.

Andre: You know, I stay here, before the (inaudible), 1938 he'll come from La Loche. And at Christmas maybe, Christmas I go here, I get here and I fish. Some guy here, one guy who told me to go and get it for you, the fish, that blanket, they'll give you twenty fish. Twenty fish a blanket for me. Maybe a hundred, something I guess (inaudible). I've bring here twenty fish. In a day I get there. Boy, lots of fish, whole place high. Yeah. One place in La Loche I think it was
bought two thousand fish. Yeah, all in winter.

Ray: In the shed, eh?
Andre: Yeah.

Ray: Inside the shack, eh?

Ray: That's whitefish?

Ray: Good, eh?
Andre: Yeah. This time, no fish.

Ray: No?
Andre: Yeah.

Ray: Not now, eh?
Andre: Yeah, all gone.

Ray: I wonder why.
Andre: Fishing.

Ray: Too much fishing, eh?
Andre: Yeah, too much fishing.

Ray: That's commercial fishing, eh?

Andre: Yeah. The first fish that come up, I think, everything. No fish.

Ray: They took it all before, eh?

Andre: Yeah. There's no fish. Small fish this time, I guess that's all. Boy, at this time we had lots of catfish.

Ray: Yeah.

Andre: Lots of catfish.

Ray: Who used to buy the fish here?

Andre: Waite, Waite, Waite. First time Waite buys them.

Ray: He used to come up here in the cat-train to take the fish out?
Andre: Well they don't wrap it. They come from Buffalo with a boat.

Ray: Up there, eh? With a boat?

Andre: He had a boat in the summer. And at wintertime he comes snowbug. He had tractor too. Tractor had big sides, you know, buy some fish and put in here in the shaft, long shaft. (inaudible) dog they have horses, ten. Horses ten.

Ray: With the sled, eh? A big sled?

Andre: Yeah, and put in the caboose. Yeah, well buy some fish and put in here.

Ray: Lots of fish, eh?

Andre: Yeah, lots of fish.

Ray: He took it all out, eh?

Andre: Yeah. By snowbug, tractor around here.

Ray: Was that north of here too, Wasekamio too?

Andre: No, snowbug.

Ray: Snowbug, up to Wasekamio, eh?

Andre: Yeah, going around in the lake.

Ray: And north of there too?

Andre: Yeah, and north here, snowbug make a road.

Ray: Oh yeah, from here?

Andre: Yeah, Careen here to Descharmee.

Ray: Up to Careen and Descharmee?

Andre: Yeah, Careen had two road.

Ray: Two roads?

Andre: Yeah. This lake here Wasekamio to Descharmee. One snowbug road can make it.

Ray: Yeah.

Andre: To this place here, across. That one winter road, snowbug road.

Ray: Yeah. He made that road do you think? That Waite?

Andre: No.
Ray: No?
Andre: Yeah, it was Waite, I guess.

Ray: This one he went up to Descharme?
Andre: No, no, no.

Ray: Not to Descharme that way, eh?
Andre: Not here, maybe this way someplace, I guess.

Ray: Here, eh?
Andre: Yeah.

Ray: Somewhere here?
Andre: Yeah.

Ray: And he went up to Clearwater?
Andre: Yeah.

Ray: Oh yeah maybe here, eh?
Andre: Yeah.

Ray: Up to this lake.
Andre: Yeah.

Ray: And then up this way, eh?
Andre: Yeah.

Ray: And to Descharme that way?
Andre: Yeah, yeah.

Andre: Yeah, long.

Ray: And then you tie it onto a stick?

Andre: Yeah, yeah.

Ray: With a hide?

Andre: No, that one here, on the stick. The bone from here. Cut in here, stick put in bone, just tied.

Ray: Bone on the bottom, tie it around, yeah.
