University of Regina

2006-2007

Achieve Your Dreams
The University of Regina provides a dynamic, innovative and supportive learning experience with a growing national reputation for excellence in teaching and research. We prepare our students to excel in the local and global communities. Our research opportunities attract the best and brightest minds and our comprehensive services ensure student success. We are located in a striking natural setting which is energized by our students, faculty and staff. What an exciting place to be a student!

“It’s not only about learning a specific skill, but about the depth of knowledge that is both enjoyable and essential to my growth as a person.”
Jacqueline Beshara
Secondary Education (Math)
2nd Year

“The small class sizes make it easy to get to know people and develop lifelong friendships.”
Leye Adeboye
Geology
3rd Year

“Everyone on campus is so friendly. You get all the benefits of a larger university, but you don’t get lost in the crowd.”
Alex Rhead
International Studies
3rd Year

“The U of R offers a great atmosphere for study, superb faculty, knowledgeable staff, and programs that are recognized across Canada.”
Dean Pylypchuk
Business Administration (Accounting/Finance)
4th Year

The University of Regina is one happening place!

Here are a few of the exciting developments that await you here:

• A $30 million addition to the Laboratory Building, which will be unveiled in the spring of 2007, and will add major new capacity for science programs
• The breathtaking North and South Residences
• The Centre for Kinesiology, Health and Sport, which houses a three-court gymnasium, elevated running track, state-of-the-art fitness centre and more
• A beautiful academic green featured at the centre of the campus
• The First Nations University of Canada – the only university-level institution in North America developed and run by First Nations peoples

And in these remarkable facilities you’ll find unique opportunities:

• We give you the chance to gain valuable work experience with almost every undergraduate program and are the only university in Saskatchewan with a Co-operative Education program
• We have many one-of-a-kind programs in Saskatchewan like Social Work and Actuarial Science, as well as partnership programs with SIAST including environmental biology, medical imaging, tourism management and more
• In the prairies we are the only university with Journalism and Film and Video degrees

• We have an innovative concentration in Justice Studies, with one-of-a-kind degrees in Canada in Police Studies and Human Justice
• We are one of the only universities in Canada to offer direct entry into Education
• Over the past decades we have fostered a number of centres of excellence and our research has been focused in such fields as petroleum engineering (including the only Test Centre for CO2 capture in Canada and one of only three in the world), public policy, and Aboriginal health studies
• We have plans to open the RICE Lab (Regina Integrative Cognitive Experimentation), which will help police fight crime by developing technology to increase the accuracy of eyewitness descriptions
• We have three federated colleges that provide unique faith or culture-based learning

We care about you!

• We offer you many ways to get involved and make your time at University memorable
• We have student services designed to help you be successful
• We are open and accessible to all students

Take a Look at the Numbers

• Graduates annually: 1,600 students from Canada and more than 20 other countries
• Students: 12,750
• Alumni: 44,000
• External research grants: $22 million
• Library holdings: 2.4 million items
• Female/male ratio: 60%/40%

Welcome to Regina

Regina is the sunniest capital city in Canada, and our hearts are always open to students.

Take a look.

Regina, in the province of Saskatchewan, Canada, seems to shoot right out of the plains, its more than 350,000 hand-planted trees providing an oasis on the prairies. This beautiful capital city has grown since the 1880s through good farming, booming resource industries, a diversified economy, and expanding government services. More than 200,000 people make their home in this friendly prairie city.

The University is situated within Wascana Centre, North America’s largest urban park. Besides expansive lawns, waterways and bike paths, Wascana also holds a research technology park, a world-class performing centre, a leading Canadian art gallery, a science centre, a natural history museum, a bird sanctuary, a major movie soundstage, excellent rowing facilities, a lakeside restaurant, and the Saskatchewan Legislative Building.

Elsewhere in Regina you’ll find the RCMP training centre, professional theatre, a symphony orchestra, the province’s biggest Casino and extensive cultural, commercial and entertainment opportunities.

Come and enjoy.
**Student Life**

There are so many exciting opportunities for you at the University of Regina! Academic advisors in each faculty and federated college help you decide on your program. And there are many other ways to get information about your possibilities at the University.

**Student Development Centre**

If you’re not sure what to study or want to find out about programs, admission requirements, or just about anything else, see one of the advisors at Student Development Centre (SDC). SDC also has a free writing service and mathematics support, plus offers seminars that will support your development as a student.

sdct@uregina.ca

[www.uregina.ca/sdc](http://www.uregina.ca/sdc)

**Orientation**

Orientation is a great way for you – and your parents or partners – to get an introduction to campus life. You will take part in a campus tour and workshops and have a chance to meet the University president, deans, faculty and many other students and parents. You will also learn practical success skills and find your classes so that you’re prepared for your first day!

[www.uregina.ca/sdc/orientation](http://www.uregina.ca/sdc/orientation)

**Residences**

Living on campus is a perfect way to get the full U of R student experience – it offers you independence and friendship in a vibrant, multicultural atmosphere. Residences include access to computer labs, lounges, music and games rooms, and laundry facilities. All rooms have free telephone and high-speed Internet access and are fully furnished – what could be more convenient than that? Not to mention you’ll be so close to all of your classes and won’t have to worry about starting a car in the winter!

We have every possible living arrangement for you to choose from: on your own or with roommates, in a dorm or an apartment, cooking for yourself or buying a meal plan, co-ed or not, living with people you already know or making new friends. Your parents might miss you, but there’s nothing like living in residence. Check out the university residences at [www.uregina.ca/residences](http://www.uregina.ca/residences) and Luther College residence at [www.luthercollege.edu](http://www.luthercollege.edu)

**Sports and Recreation**

What better way to meet new friends, burn off stress and get fit than Recreation and Intramurals? They attract nearly two-thirds of the University’s full-time students to a wide range of activities including team sports like volleyball, slo-pitch, floor hockey, basketball, curling, ultimate Frisbee, rubber-chicken Olympics and soccer. You can also join clubs like fencing or Aikido, and sign up for other activities like yoga or salsa dancing.

As well, you can take advantage of a combatives room, movement studios, a three-court gymnasium with seating for 2,000, an elevated running track and full array of state-of-the-art fitness equipment, swimming pool and more, which are all housed in the 255,000-square-foot Centre for Kinesiology, Health and Sport.

[www.uregina.ca/recservices](http://www.uregina.ca/recservices)

**Arts & Culture**

Why not join the University chamber choir, jazz band, concert band or other ensembles, or just attend their concerts and enjoy the music? You can also participate in a theatrical production on one of two university stages and attend an opening at the Fifth Parallel Gallery, the longest-running student-operated gallery in the country – or exhibit your own artwork there!

Other events include film and video screenings, a playwright reading series, library events and the annual powwow of the First Nations University of Canada. You will never be bored with all these activities going on!

“Services like the Student Development Centre helped me get my balance here at University.”

Danielle Frost

Biology 4th Year
The thing I like best about the U of R is that there are so many choices of programs, clubs, and activities to get involved in.

Sonya Soveran
Kinesiology and Health Studies 3rd Year

Athletics
The University participates in intervarsity basketball, volleyball, track and field, swimming, wrestling, hockey, women’s soccer, and in men’s football (U of R Rams). Our Cougars belong to the Canadian Interuniversity Sports and compete in the Canada West Universities Athletic Association, and 20 per cent of Cougar athletes achieve Academic All-Canadian status each year. As a student, you can go to Cougars’ and Rams’ games for free!

The Cougars enjoyed a stellar 2005-06 campaign from the men’s basketball team, which finished in first place in the Great Plains Division with a 16-4 regular-season record, then defeated the Winnipeg Wesmen to advance to the Canada West Final Four. The women’s hockey team also had a solid regular season, finishing in second place in the CWUAA with a 9-6-5 record.

Several University of Regina athletes earned All-Canadian honours from the CIS during the 2005-06 season. Joel Lipinski and Steve Wilson (football) each were named CIS Football Defensive All-Canadian. Karissa Swan (women’s hockey) was the CIS Rookie of the Year. Ali Bernard (women’s wrestling) and Jon Rice (men’s wrestling) both took the gold in their weight class at the CIS championship.

Exchanges
Love to travel? Want to see the world? Every year U of R students are involved in placement programs in countries like Australia, Finland, Japan, and Brazil. Exchanges range from one semester to a full year. If you’re interested in a North American exchange, the National Student Exchange program offers exchanges to 120 universities across Canada and the US. There are also volunteer and work-abroad programs.

www.uregina.ca/isse

UR X-celerating!
Jumpstart your University career through UR X-celerating!, our accelerated student program. The program lets you take a U of R class while you’re still in high school, giving you the opportunity to start earning credit towards your degree. You can take any 100-level class as long as you have the prerequisites, approval from your high school principal, and a completed admissions form. Popular UR X-celerating! classes include Psychology, Sociology, and Computer Science.

www.uregina.ca/newstudent/accelerated.html

And So Much More!
- Counselling Services: offers free and confidential personal counselling.
- Aboriginal Student Centre: is a link between Aboriginal students and the many student services offered at the University of Regina. It will help you make a successful transition to University life and help you to realize the achievement of your educational goals.
- Disability Resource Office: provides support and advice if you have a disability.
- Religious Services Office: connects you to students from various religious backgrounds and offers faith-based support.
- Allied Health Centre: includes walk-in appointments, physicians, nurses, lab technicians, physiotherapists, chiropractors, massage therapists, podiatrists, psychiatrists, and exercise professionals at the Dr. Paul Schwann Centre.

University of Regina Students’ Union (URSU)
URSU represents all U of R students and operates student services, resource groups and clubs. URSU is also an advocate of student issues and ensures the needs of students are presented to the university administration and the provincial and federal governments. Their services include a housing registry, resume service, student advocate, student handbook, copy centre, computer stations, tutor registry, used bookstore, and the Lazy Owl Pub.

www.ursu.uregina.ca

Discover
Child Care: two day care centres provide licensed services and creative programming.

Computer Access: hundreds of computers are available on campus for you to use.

Campus Security: patrols the campus 24/7, responds to calls, offers an evening Walk-Along Program, and delivers crime-prevention classes. You’ll always feel safe here!

Libraries: four on-campus libraries hold 2.4 million volumes to meet your research needs, and offer library orientation sessions at the start of each semester.

Women’s Centre: provides support for female students including peer counselling, resource materials, special events, and mentoring programs.

Food Services: a wide variety of delicious choices are available at convenient outlets across campus, and meal plans are a great option.

Bookstore: get your required textbooks, school supplies, gifts, and Cougars, Rams, and U of R clothing.

Parking: a range of parking services is available, and you can purchase passes online.

International Student Success Office: assists the University’s international students with things like orientation, health insurance, visas, advocacy, and general information.

English as a Second Language (ESL): helps you fulfill the U of R’s English language proficiency requirements with our world-recognized ESL program.

Visit Us
Our door is open! To get first-hand information on any program at the University of Regina, plan a campus visit.

UR Connected!
Our campus visit program will help you get excited about your future at the U of R by exploring the many possibilities here and connecting with students from all over Saskatchewan.

UR Connected! Evening Open House – October 17, 2006
Everyone is invited to this fun event that provides an exclusive opportunity to enter the walls and halls of the University in a relaxed, laid-back setting. You will enjoy viewing displays at your own pace and taking part in a campus tour.

UR Connected! Fall Event – October 18, 2006
Grade 12 students, parents and guidance counsellors will get a complete tour of the U of R led by current University students, participate in fun activities and informative seminars, and interact and connect with many prospective students from around the province.

UR Connected! Winter Event – February 14, 2007
Grade 10 and 11 students, parents and guidance counsellors will attend sessions on career planning and different career possibilities and take part in a fun and informative campus tour.

Get connected!

Campus Tours
We will arrange a specialized visit or tour of the University of Regina for any size or age of group or special interest.

Register for UR Connected! or book a campus tour today! Visit www.uregina.ca/newstudent/oncampus.html, call toll free 1-800-644-4756 or email campus.visit@uregina.ca.

“At UR Connected! I met people from different schools and got a feel for what the U of R is like. It was fun and made me feel welcome.”
Josh Jakubowski
Arts Education 1st Year
Scholarships
A scholarship may be waiting for you!

Every year the U of R presents more than 2,000 scholarships, awards and bursaries, with a total value of over $2.9 million. With a wide variety of eligibility criteria and scholarships tailored to specific student groups, there’s likely a scholarship that’s right for you. Here are some examples:

- Guaranteed Centennial Merit scholarships of $2000 to $3000 for outstanding students entering directly from a Saskatchewan high school with entrance scholarship averages over 93%
- Over $75,000 in scholarships for international students
- 17 distinct scholarships and financial need bursaries allocated solely for Aboriginal students, including the CIC Aboriginal Bursary
- Many other scholarships for rural students, varsity athletes, IB and accelerated students, part-time students, federated college students, out-of-province students, Distance Learning students, transfer students and more!

For more information or an application form visit www.uregina.ca/awards or email scholarships@uregina.ca.

The deadline for entrance scholarships is March 15.

"The opportunity to receive scholarships made me want to work harder and really focus on my marks."

Paul Schubach
Petroleum Systems Engineering
2nd Year
Co-operative Education

Why choose Co-op?

• Improve your job search, resume, and interview skills
• Help pay your way through university by earning $8,000 - $12,000 per work term
• Experience work, social and cultural life in a new location. Many Co-op placements are outside Regina, some even overseas!
• Kick-start your career
• Boost your grades through practical experience

The Co-op option is available in:

• Arts • Business Administration
• Engineering • Mathematics & Statistics • Chemistry & Biochemistry
• Physics • Computer Science

coopoff@uregina.ca
www.uregina.ca/coop

Other Work Experience

Besides co-op education, many U of R programs offer internships, practicum placements and other work experience options, along with research and student assistantships, all of which can help you:

• Supplement your education
• Make career connections
• Gain confidence in your chosen field

Here are some examples:

• Faculty of Arts
  ❍ Arts Work Experience Internship program – do practical work and receive credit
  ❍ Police Studies internship
  ❍ Journalism paid internship
  ❍ Two Human Justice practicums

• Faculty of Education
  ❍ In-school experience throughout your program, beginning in your first semester

• Faculty of Engineering
  ❍ Co-operative Education Internship Program (12-16 months)

• Faculty of Fine Arts
  ❍ Professional Placement Program

• Faculty of Kinesiology and Health Studies
  ❍ Four-month fieldwork placement

• Faculty of Science
  ❍ One-year paid internship in Actuarial Science

• Faculty of Social Work
  ❍ Two practicums

Student Employment Services

Where education and employment meet! We’ll help you find employment through services like an online job board, a summer and graduate registry, Careers Day, Education Careers Expo and Summer Job Fair, workshops on resume preparation, interview skills and more. Career Exploration and Counselling is where you’ll find workshops, information and counselling on self-assessment, job opportunities and search techniques.

stempoff@uregina.ca
www.uregina.ca/ses

Aboriginal Career Centre

The Centre helps students find career-related work through work placements, internships, and summer employment. It also provides pre-employment services that include resume preparation and critiquing, individual career counselling, and mock interviews.

aboriginal.careers@uregina.ca
www.uregina.ca/acc

Co-op students bring a level of enthusiasm and energy into any department they work with – and it’s contagious! The students supply valuable assistance to FCC staff, and it provides us with the opportunity to develop future FCC employees.”

### Pre-professional programs

Low cost, smaller class sizes, and proximity to home are just a few reasons for you to begin studying here before moving on to another institution to complete your professional degree.

- Agriculture  
- Dentistry  
- Law  
- Medicine  
- Pharmacy  
- Nutrition  
- Veterinary Medicine  
- Physical Therapy  
- Optometry  
- Occupational Therapy  
- Chiropractic Medicine

[For an alphabetized list of programs visit www.uregina.ca/newstudent/whattake.html](http://www.uregina.ca/newstudent/whattake.html)

### Transfer programs

These programs provide you accessibility and allow you to benefit from the expertise at the University of Regina and another institution.

- Transfers with Saskatchewan Institute of Applied Science and Technology (SIAST) – Corrections Services; Therapeutic Recreation; Tourism Management; Recreation & Leisure Management; Integrated Resource Management; Chemical Technology; Medical Radiologic Technology
- Transfers with Medicine Hat College & Briercrest College – credits towards Bachelor of Arts

Visit [www.uregina.ca/genocal/](http://www.uregina.ca/genocal/)
Arts
Acquiring a Bachelor of Arts degree helps you become a flexible and well-rounded student, developing skills in analysis and critical thinking, research and problem solving, teamwork and communications. In Arts you can major in one subject area while also studying broadly in other disciplines. You can select a double major or a major and minor to focus on, and even greater specialization is available in the BA Honours program.

Looking for work experience to compliment your Bachelor of Arts degree? You can choose to be part of the Co-operative Education program, which helps you gain meaningful work experience, network in the community, and get paid! Alternately, you can be part of the Arts Work Experience Internship program, which lets you earn credit for subject-specific work.

Arts graduates have worked as: audiologists, counsellors, economists, editors, forensic psychologists, historians, human rights workers, media analysts, museum curators, parks planners, policy analysts, public relations officers, researchers, translators, writers.
arts.studentservices@uregina.ca
www.uregina.ca/arts

Business Administration
The Faculty of Business Administration’s School of Business prepares you for management of private, public and non-profit organizations. You’ll develop conceptual, human, technical and operational knowledge and skills to help you succeed. The nationally and internationally distinguished faculty will guide you as you study in state-of-the-art facilities.

While studying Business Administration you can gain valuable work experience through the Co-operative Education program. As well, the Youth Business Institute gives high school students the challenge of running their own business through computer simulation, and the UR Business Students Society provides a wide range of activities for socializing, networking and raising money for charity.

The Faculty’s Excellence Program offers direct entry for Saskatchewan high school students with an 85% or better early conditional average.

Business Administration graduates have worked as: accountants, advertising account executives, corporate executives, public employees, entrepreneurs, marketing managers, human resource specialists, investment advisors, stockbrokers, tax consultants.
urbusiness.undergrad@uregina.ca
www.uregina.ca/admin

Success
Education

Our nationally-renowned Faculty of Education offers you direct entry from high school or an after-degree option. In-school teaching experience is a strong focus of the program; you’ll begin in the classroom in your first year and work up to a four-month internship in your final year. With small class sizes and the opportunity to work closely with fellow students, you’ll make great connections and be fully prepared for your career in Education.

Other opportunities for you include SchoolPlus, Aboriginal Education and Social Justice, the Off Campus Experiences in which you’ll learn at sites away from the University, and the Internship Seminar where you’ll work with your co-operating teachers to ensure rich opportunities and support during internship.

Additional programs in Education:
• Saskatchewan Urban Native Teacher Education Program (SUNTEP)
• Northern Teacher Education Program (NORTEP)
• Yukon Native Teacher Education Program (YNTEP)

Education graduates have worked as: teachers, curriculum developers, seminar facilitators, daycare directors, educational consultants, community developers.

contactus@education.uregina.ca
http://education.uregina.ca

Engineering

When you enter the innovative Faculty of Engineering you’ll be joining Western Canada’s pioneer program in systems engineering and co-operative education. Your studies will combine theory and practice, building on a foundation of mathematics and basic sciences, followed by courses in engineering sciences and design. You will gain an understanding in your area of specialization, and also in the ways different areas of engineering work together and create social, environmental and economic impacts. Practical work experience is available through the Co-operative Education program, and alternately you have the option of completing a 12- or 16-month internship during your degree.

Attend “What is Engineering”, an event put on by the U of R, U of S and the Association of Professional Engineers and Geoscientists of Saskatchewan. It will introduce you to the engineering programs at both universities through interactive presentations and demonstrations.

Engineering graduates have worked as: electronic systems engineers, software systems engineers, project engineers, water resource managers, waste management engineers, environmental impact assessors, design engineers, drilling engineers, robotic engineers, energy consultants.

engg@uregina.ca
www.uregina.ca/engg

“I’ve always been interested in design and engineering, so I thought this would be a great program to pursue. And I was right!”

Derek Yau
Environmental Systems Engineering
4th Year
In Fine Arts you will be encouraged to balance creative expression and technique, theory and practice, research and application. Our programs cover a broad range of educational options designed to contribute to the long-term development of artists and the arts. Interdisciplinary courses will bring you together with students and faculty from many departments to explore expressive media that truly stretch your imagination. You’ll enjoy the latest equipment and technology, along with two performing arts theatres, a student-run gallery, spacious teaching studios, and practice and performance venues. You can put your knowledge and creativity to work through the new Professional Placement Program, where you’ll receive credit for working at an arts organization in a position related to your major. As well, exciting student associations like the Fine Arts Students’ Society and Regina Film and Video Students’ Society give you the opportunity to connect creatively with students campus-wide.

Fine Arts graduates have worked as: visual artists, graphic designers, writers, directors, performers, producers, curators, consultants, critics, conductors, historians, teachers, administrators.

finearts@uregina.ca
www.uregina.ca/finearts

Kinesiology and Health Studies
Kinesiology is the study of human movement. Kinesiology and Health Studies is a dynamic Faculty that offers cutting-edge programs in research, teaching, and service, and is constantly evolving to create the most innovative health and wellness programming for you, the student. In this program you’ll actively learn about human development and physiology, physical activity, leadership and communication, and the principles of healthy lifestyles. A mandatory four-month fieldwork placement will give you practical experience and valuable employment contacts for the future. The Faculty’s home is the newly expanded 225,000-square-foot Centre of Kinesiology, Health and Sport, which celebrates the academic, research, and athletic successes of faculty and students.

Kinesiology graduates have worked as: disability sport coordinators, exercise therapists, fitness consultants, recreation directors, training and conditioning coaches, sports publicists, health research scientists.

kinesiology@uregina.ca
www.uregina.ca/kinesiology

“I love my program – the classes are small, the profs are excellent, and it’s the only Film and Video degree between Toronto and Vancouver.”

Media Production and Studies 2nd Year
Science
A degree in Science goes way beyond atoms and zygotes! Science is all about solving problems, mastering facts and concepts, excelling in investigative research, and finding answers to some of the world’s most challenging questions. And be sure to get involved in one of the many active student societies – they’re a great way to meet other students and share in some fun and entertainment as well as educational and networking opportunities.

The Faculty of Science offers you a co-operative education option in Chemistry, Computer Science, Mathematics and Statistics, and Physics. As well, pre-professional study is available in Chiropractic Medicine, Dentistry, Medicine, Nutrition, Occupational Therapy, Optometry, Pharmacy, Physical Therapy and Veterinary Medicine.

Science graduates have worked as: actuaries, mining geologists, computer hardware designers, environmental impact assessors, wildlife conservationists, oil exploration specialists, nuclear power researchers, chemical technologists, programmers, Internet researchers, computer graphics specialists, meteorologists.

Social Work
At the U of R you’ll find Saskatchewan’s only degree in Social Work, also accessible through our Community Education Centre in Saskatoon and through regional colleges. Social Work gives you the opportunity to assist people in improving their social conditions in life, and is a great profession for students interested in helping individuals, families, and communities reach their full potentials. We focus our studies on the Saskatchewan context, preparing you for the real world with social work practice, research, education and policy in urban, rural and northern areas.

Your Social Work degree program includes two field practicums and is accredited by the Canadian Association of Schools of Social Work, qualifying you for work nationally and internationally.

In partnership with the First Nations University of Canada, we offer degree and certificate programs in Indian Social Work. We also offer a Bachelor of Social Work degree at Yukon College in Whitehorse, YT, and a Certificate of Social Work at Aurora College in Fort Smith, NT.

Social Work graduates have worked as: social workers, community development workers, advocates, child welfare officers, family and marriage counsellors, corrections officers, social researchers, policy analysts.

“My program chose me. I started taking Biochem classes and loved them.”

Jessica Nelson
Biochemistry
4th Year
Graduate Studies and Research

The U of R’s Graduate programs engage our students with discovery, professional development, growth, and career opportunity. The Faculty of Graduate Studies and Research offers you a wide range of programs and research expertise, including a focus on interdisciplinary studies. The University now includes a Graduate School of Public Policy.

PhD programs: Biochemistry, Biology, Canadian Plains Studies, Chemistry, Computer Science, Education, Engineering, Mathematics and Statistics, Physics, and Psychology.

Financial aid: Graduate Research Awards, Graduate Scholarships, Teaching Assistantships, Teaching Fellowships, plus a $4,000 top-up to all holders of federal scholarships such as NSERC and SSHRC.

Centre for Continuing Education

The Centre for Continuing Education provides you with accessible education and lifelong learning opportunities. Courses and programs are available for adult learners seeking professional and personal development, children and adults pursuing cultural enrichment and development, international learners, learners in credit and non-credit programs and those pursuing their studies via distance learning. Available programs and options include:

- Business and Professional Development
- Seniors’ Education Centre
- Distance Learning
- Summer University
- Weekend University
- Credit Studies
- English as a Second Language
- Conservatory of Performing Arts

“Attending the MHRD program will prepare me to participate fully in society and respond to the demands of a rapidly-changing world.”

Dora Zhong
Masters of Human Resource Development 1st Year
Institut français
Let L’Institut français open the doors to “La Francophonie” for you.
Profitez des programmes, services et activités qui vous encouragent à utiliser le français. L’Institut français est la plaque tournante de l’éducation postsecondaire en français à l’Université de Regina. L’Institut élabore et appuie aussi des projets de recherche se rapportant aux francophones en milieu minoritaire.
Take advantage of programs, services and activities that facilitate and encourage your use of the French language. L’Institut français is the driving force of French post-secondary education at the University of Regina. It also develops and supports research projects dealing with Francophones in minority settings.

Federated Colleges
Our three federated colleges each have distinctive cultural and philosophical heritages. They contribute to the campus by blending their special interests and their student bodies with the programs of the larger University.

Luther College
Enjoy a community committed to the highest quality of teaching and learning, and concerned with the full development of our students intellectually, socially and spiritually in an environment of free inquiry, critical analysis and toleration of all perspectives.
www.luthercollege.edu

Campion College
Benefit from academic programs and support for students from a 450-year Jesuit tradition of excellence in education.
www.campioncollege.ca

First Nations University of Canada
Take advantage of the opportunity for students of all backgrounds to learn in an environment of First Nations cultures and values.
www.firstnationsuniversity.ca

“L’institut français allows you to become aware of opportunities in French, especially in Saskatchewan. The staff is always there to help you succeed.”
Judit Tshinbu-Nkongolo
Business Administration (Finance) 3rd Year

“With a federated college, you get to go beyond the pages of a textbook and actually live your education. With fellow students, professors, exchange students and staff you create friendships that support emotional, spiritual and educational growth. Not often does one find a community that can have that sort of profound effect.”
Jacenta Murch

One approved 30-level language, social science or fine arts course

One additional approved 30-level course

One approved grade 12 math or science

One approved grade 12 language, social science, or fine arts course

One additional approved grade 12 course

Two English 40S (1 cr. each)

One approved 40-level math or science

One approved 40-level language, social science or fine arts course

One additional approved 40-level course

English 12U

One approved 12U math or science

One approved 12U language, social science or fine arts course

One additional approved 12 U/M course

Francophone Students

Francophone students may substitute a French language or literature course for one of the English courses, or may present only French language and literature courses in combination with proof of English language proficiency.

Students who have completed more than one year at a CEGEP may be eligible for up to one year of transfer credit.

U of R Admission Requirements*

Applicants to the U of R are expected to meet General Admission Requirements and Specific Faculty/Program Requirements (see chart)

General Admission Requirements:

Saskatchewan Secondary Level Standing (24 credits) or equivalent.

A minimum overall average of 65% on courses used for admission. Engineering and the Baccalaurat en Education require 70% on subjects used for admission. Business Administration requires an 85% for direct entry from high school.

See the U of R Undergraduate Calendar or our website (www.uregina.ca) for approved lists of courses and any updates to admission requirements.

Steps to Successful Admission: How to Apply

Complete the U of R application form and submit it to the Admissions Office along with the $60 non-refundable application fee*. Students can also apply on-line (with a valid credit card number) at www.uregina.ca/admissions.

Arrange to have official transcripts of all secondary and post-secondary work sent to the Admissions Office. Post-secondary transcripts must be sent directly from your previous institution.

When to Apply:

Faculty of Education: the application form, fee and the Teacher Education Admission Profile must be received by December 1st. All other supporting documentation must be received by February 1st.

The Faculty of Education admits for Fall semester only.

All other Faculties:

Fall semester: July 1 (application form & fee); August 1 (transcripts)

Winter semester: November 1 (application form & fees); December 1 (transcripts)

**Deadlines and Procedures for Early Conditional Admission:**

High school students who will graduate from grade 12 in June:

- For most faculties, you can apply at any time during your Grade 12 year until June 15th. For programs in Education, you must apply by March 15.
- Submit a University of Regina application form, the non-refundable $60 application fee* an official transcript of your high school grades to date, and a list of the courses that you are taking in Grade 12 (course and level; e.g., English 30), to the address on the form.
- Arrange for your final and official high school transcript to be submitted to the U of R by August 1.**

* Subject to change without notice.
** We recommend that Saskatchewan students have their transcript submitted electronically by Saskatchewan Learning.

For application forms and admission requirements please contact:
Admissions: 306 585-4591
admissions.office@uregina.ca
www.uregina.ca/admissions
Fax: 306 337-2525

1. Saskatchewan high school students with an early conditional average of 85% or higher may be admitted directly into the Faculty of Business Administration (requires Math B30). Students with averages between 85.00% and 84.99% will be admitted to a Pre-Business year in the Faculty of Arts or the Faculty of Science. These requirements may be changing. Watch our website for an update!
2. Education Additional Admission Requirements: Teacher Education Admission Profile
3. Fine Arts Additional Admission Requirements: BFA Visual Arts: portfolio; BMUS: interview; audition, music theory entrance test; BMUSEd: audition, music theory entrance test, BMUSEd Teacher Education Admission Profile.
