Join us for the first lecture in the Library's Beyond the Book series for 2011. Following the lecture, Archives and Special Collections will launch web sites for two recently completed digitization projects. These highlight the history of Regina College and Florence Kirk, a Regina College alumnus whose letters home tell the fascinating story of her life in China from 1932 to 1950. A reception will follow.

Dr. James Pitsula is professor of history at the University of Regina. He has written two books on the history of Regina College and the University of Regina.
