AGENDA ITEM #1: Report on STAT 100 issue	Follow up action
Morina reported that she was advised by Bev Liski from the Registrars office to treat the replacement of STAT 151 by STAT 100 and STAT 152 by STAT 200 as a "Forced Change". This means that we would not actively make any changes to our programs and pre-requisites relating to the proposal, but at the time the Statistics changes go through the approval process, we would notify CCUAS of changes in our program that result from this.	Glenys to enact "Forced change" mechanism at the time the statistics changes go to CCUAS for approval.
