

WELCOME FROM THE ACTING UNIVERSITY LIBRARIAN

I would like to take this opportunity to extend a warm welcome to all our new and returning faculty, students and staff.

If you have not yet had an opportunity to visit the Library, either in person or virtually, I invite you to do so. I say the "Library", but did you know that the Dr John Archer Library Building houses more than just the University Library? It is also home to the [University Archives](#), the [University Records Management Programme](#), the [Centre for Teaching and Learning](#) and our [Copyright programme](#).

You will find a variety of work and study spaces spread out over the 6 floors of the building – classic tables and chairs, individual study carrels, lounge style seating, group study areas, and computer labs. If you are looking for silent study, head to the 5th floor.

Also spread throughout the building are our physical collections – books, journals, microfilm, dvd's, cd's, and archival materials. We also have a rich online collection which you can access at anytime and from anywhere. And, if there is something you need that we don't have, we can usually get it for you from another library. Apart from our collections, we also have laptops and iPads for lending and a 3D printer for general use.

Finally, last but not least, we have people who are here to help you in your work. Please feel free to ask them for assistance. You can find them at the Library Help Desk on the main floor or out and about on campus as part of the "Pop-Up Librarian" programme. They are also available by [phone, text or chat](#).

Remember, this is yoUR Library! Pay us a visit – either physically or virtually.

Let us know how we are doing. Drop us a [line](#), give me a call at 306-585-4132, send me an [email](#), or drop by my office on the 6th floor of the Dr. John Archer Library Building.

Sincerely,
Colleen Murphy
Acting University Librarian.

The Scavenger Hunt is an example of a Library Exploration Activity where the students will experience the "library as place". -Geoffrey Freeman

(1) To provide students with a physical orientation to the library building,

(2) To allow students to explore areas they will use in the future, such as the Help Desk, individual study areas, etc.

(3) To introduce students to using the library catalog to find library materials

Each class will be divided into groups of four students and each group will stay together to complete the Scavenger Hunt in 30 minutes. For some questions they will use their cell phone camera to provide the answers.
