

UNIVERSITY OF REGINA

N E W S R E L E A S E

MEDIA ADVISORY

The Honorable Ed Tchorzewski, Saskatchewan minister responsible for information technology, will officially inaugurate the new 64 processor Alex Informatique AVS parallel supercomputer:

**Friday, May 5, 1 p.m.
University of Regina
Classroom Building
Room 124.2**

The Alex supercomputer is the only one of its kind in Western Canada. Through a complicated financial arrangement with Alex Informatique of Montreal and Paradigm Consultants of Regina, the computer and its maintenance comes at no cost to the University and also makes available very significant funding for research projects.

Note: Room 124.2 is on the main floor and is most easily accessed from the West entrance of the classroom building. Go left, then take the hallway to the right. Room 124.2 is at the far end.
